REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claims are not anticipated or deemed obvious over the prior art in which the invention of a nail guiding device comprises a body including a workpiece abutment and a sleeve having a passage, a flexible membrane overlapping an **end** of the passage and having an opening for allowing a nail head to pass therethrough, a drive piston, such that when the abutment is in contact with a workpiece, at least a portion of **the membrane is spaced away from the workpiece surface**. Hilti '209 shows a membrane 117 with an axially interior portion spaced from the workpiece, but the membrane is part of the fastener assembly, and has an opening too small to allow the nail to pass therethrough. Pfaff et al. '440 discloses membranes 29, 129, 229 spaced from the workpiece surface, but the membrane is part of the fastener assembly which is assembled prior to insertion into the passage, and also has an opening generally too small to allow the nail to pass therethrough. Hoffman and Fields have membranes with axially interior portions spaced from the workpiece, but fail to disclose the claimed workpiece abutment features on the body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
